Executive Summary

WHAT WE FOUND

Dress Up runs on shopify (detected at High confidence). Across 5 observed discovery surfaces, 2 strengths and 0 issues were identified from retained inspection evidence.

PLATFORM
shopify
Detected at High confidence from observed payloads.

INSPECTION STATUS
partial
Overall confidence: Medium.

OBSERVATIONS
17
Bounded endpoint observations behind this report.

Discovery Scorecard

Surface	Score	Basis
Search	100/100	queries returning at least one result / queries attempted (5 observations, Medium confidence)
Autocomplete	100/100	typed prefixes receiving at least one suggestion / prefixes attempted (5 observations, Medium confidence)
Filters & Facets	100/100	successful probes / probes attempted (2 observations, Medium confidence)
Recommendations	100/100	successful probes / probes attempted (3 observations, Medium confidence)
Mobile Experience	100/100	successful probes / probes attempted (2 observations, Medium confidence)

Scores are directional and explainable: each is the stated ratio over the bounded observation set, not a weighted model.

Key Findings

STRENGTH · SEARCH

Every attempted search query returned products (5 of 5).

Customers searching Dress Up with these query styles reach product results instead of dead ends. Search is carrying discovery traffic to sellable inventory for the observed query set.

STRENGTH · AUTOCOMPLETE

Every typed prefix received suggestions (5 of 5).

Customers get guidance before submitting a search, reducing typing effort and misses. Assisted queries convert better than unassisted ones.

HOW TO READ THIS

Every finding ties to a retained evidence file from inspection GEN-013-20260715T021743Z; nothing here is opinion without an observation behind it. Surfaces that could not be observed carry no claims.

What This Report Does Not Claim

- Scores are directional, computed from 17 bounded observations, not a full catalog benchmark.
- No rendered-UI evidence was captured; visible layout, imagery, and interaction quality are out of scope for this report.
